AquaCool

With excellent moisture management properties,
our yarns keep you comfortable and dry even during
extreme sporting activities.

BREATHABLE, SKIN-FRIENDLY AND FASHIONABLE

Whether a professional athlete or just a sports lover, the need to be comfortable, especially with apparel is always paramount. Our moisture management yarn ensures the fabric is dry even during exercise, with moisture regulation and rapid absorption. The water vapour permeability and moisture management of the yarn prevent water condensation ensuring improved superior thermal efficiency, comfort and durability.

Potential Benefits:

- Keeps wearer comfortable and cool
- Helps to avoid skin diseases and irritation
- Extremely durable
- Provides better care performance and pleasant touch
